

23 June 1959

STATINTL

General Counsel has modified the Jackson letter by striking the last paragraph as you had drafted it. They have replaced it with the following thought:

I have read with interest your remarks contained in the Congressional Record relative to the Afro-Asian language problem and I am enclosing herewith for your information an account of our activities in the language and area development field.

General Counsel will coordinate this with Colonel White and send us a copy of the outgoing letter as signed by the Director.
